lip balm  
sunscreen  
sunblock  
sunless tanning product  
bronzer  
body polish  
stick deodorant  
hair products

## ***How to avoid it:***

Avoid using any product that contains **avobenzone**. It is important to check the complete ingredient list on the label of each product you use. If avobenzone is present, one of its names listed above should appear in the ingredients.

If you cannot find the ingredient list, go to the store and look at the original box or package. Some products' ingredient lists are available on the internet at the manufacturer's website, the store's website, or at websites like <http://householdproducts.nlm.nih.gov>, <http://www.cosmeticsdatabase.com>, or <http://www.drugstore.com>.

For possible workplace exposure, check the ingredient labels of all products encountered.

Be sure to tell your nurse, attendant, masseuse, aesthetician, beautician, or others involved in your personal care about this allergy.

By reading ingredient labels, you should be able to avoid this allergen and find safe alternatives that are free of it. Your doctor may assist you with a list from the CARDatabase.
