Shave cream

Nail polish remover

Sunscreen

Personal lubricant

Topical medications, including
prescription **tretinoin**

Some possible food sources:

Beverages

Gum

Ice cream

Fruits

Cereal

Oils

Fats

How to avoid it:

To avoid BHT check the complete ingredient list of each product you use or eat. For products already at home that do not list ingredients, go to the store and inspect the original box or package. Some products' ingredient lists are available on the internet at the manufacturer's website, the store's website, or at websites like <http://householdproducts.nlm.nih.gov>, <http://www.cosmeticsdatabase.com>, or <http://www.drugstore.com>.

Ask your hairdresser, masseuse, physician, nurse, and others to avoid using products containing BHT in your care.

To identify possible workplace exposure, check the complete ingredient list of every product encountered. Wear protective rubber or vinyl gloves if you must handle items containing this chemical.

Also may be found in:

Animal feed

Petroleum products

Jet fuels

Rubber

Plastics

Polyethylene, e.g. gloves

Paints

Glues

Adhesives

Embalming fluid
