

Cinnamic Aldehyde

What is it?

Cinnamic aldehyde is a substance that smells and tastes like cinnamon. It is found in cinnamon leaves, cinnamon bark, cassia (also known as Chinese cinnamon), Balsam of Peru and Balsam of Tolu. It is a component of numerous essential oils including hyacinth, myrrh, patchouli and Bulgarian rose. It is used as a fragrance and flavoring agent for its characteristic warm, spicy odor.

Products with the terms *natural*, *unscented*, *hypoallergenic*, and *fragrance free* are not regulated and thus may contain fragrance. Do not trust these labels. However, know that true *fragrance-free* products do exist.

CINNAMIC ALDEHYDE can also be known as:

- Cinnamyl alcohol
- Styrene
- 3-phenyl-2-propen-1-ol
- Cinnamaldehyde
- Cinnamal
- Beta or gamma phenylacrolein
- 3-phenylpropenal
- Cassia aldehyde

- Fragrance chemicals
- Cinnamic alcohol
- Cinnamic acid
- Fragrance Mix 1: Cinnamic aldehyde is one of the chemicals tested in Fragrance Mix 1

In addition, the ACDS Contact Allergen Management Program® (CAMP®) can help manage contact dermatitis. It helps to find products that are safe to use by creating a list of products that do not contain one's allergens. For more information about CAMP®, please ask your doctor or visit www.contactderm.org.

REVISION DATE: DECEMBER 2025

What should I do to avoid CINNAMIC ALDEHYDE?

It is best to avoid all fragrance. Even if marketed as *unscented* or *fragrance-free*, these products can contain fragrance. Look for fragrance, plant, or botanical names on labels. For products at home with no ingredients, go to the store to inspect the original package or look at the manufacturer's or store's website.

You may have to avoid airborne fragrance. For example, candles and incense. Exposure may also occur from contact with partners that use fragrance.

To identify workplace exposure, check ingredient lists. Sometimes fragrance is present even though not listed. You may need to contact the manufacturer. Material Safety Data Sheets (MSDS) sheets usually do not include the full ingredient list. Substitute fragrance-free alternatives or wear rubber or vinyl gloves.
