

Cocamidopropyl Betaine

What is it?

Cocamidopropyl betaine (CAPB) is a mild sudsing agent (surfactant) derived from coconut. It may be used for thickening, foam stabilizing, or anti-static. It is a component of many shampoos, bath gels, bar soaps, and liquid soaps.

COCAMIDOPROPYL BETAINE can also be known as:

- Betaine
- Coco betaine
- Cocamidopropyl dimethyl glycine (CADG)
- Cocoamphodipropionate
- Cocoyl amide propylbetaine
- Disodium cocoamphodipropionate

Some Possible Uses of COCAMIDOPROPYL BETAINE / Where it might be found:

- Baby wipes, Body wipes, Face wipes
- Bar soap, body wash, body scrub
- Shower or bath gel, Bubble bath
- Body creams and lotions
- Shampoo, Dandruff shampoo
- Hair conditioner
- Hair mousse, gel, foam, detangler
- Hair bleach, Hair color
- Facial cleanser, wash
- Make up remover, Face masks
- Face creams and lotions, toner
- Anti-aging products, Eye creams
- Makeup: bronzer/highlighter, concealer, powder, foundation, lip balm, lipstick, eyeliner, brow gel/styler
- Shave gel, shaving cream, after shave
- Hand cleanser, Liquid hand soap
- Mouthwash, Toothpaste

- Contact lens cleaner, solution
- Acne wash, cleanser, scrub, treatment
- Anal hygiene product, hemorrhoid wipes
- Antiseptic, wound care products
- Feminine hygiene products
- Household cleaners
- Dish soap
- Laundry detergent
- Pet care items

Other products that can cross react with COCAMIDOPROPYL BETAINE:

- Amidoamine
- Dimethylaminopropylamine (DMAPA)
- Oleamidopropyl dimethylamine
- Betaines

What should I do to avoid COCAMIDOPROPYL BETAINE?

Avoid using any product that contains cocamidopropyl betaine. Read the complete ingredient list on the label of everything you use, looking for CAPB or one of the other names listed above.

If no ingredient list is present, go to the store and inspect the original box or package. Some products' ingredient lists are available on the internet at the manufacturer's or store's website.

Ask your hairdresser, barber, or medical provider to avoid using products that contain cocamidopropyl betaine in your care.

To find a possible workplace exposure, check the complete ingredient list of each product you encounter. If you must come in contact with this agent at work or in care of children, elders, or pets, wear protective rubber or vinyl gloves.
