

CORTICOSTEROIDS

What is it?

Corticosteroids are anti-inflammatory compounds used to treat skin, eye, ear, and nose rashes and itching. They are also available as injections, inhalers, or pills for conditions like joint inflammation / arthritis, asthma, and colitis.

CORTICOSTEROIDS can also be known as:

Glucocorticosteroids, glucocorticoids, or cortisones

Some Possible Uses of CORTICOSTEROIDS / Where it might be found:

Over-the-counter hydrocortisone, hemorrhoid, or other anti-itch creams, prescription creams and ointments (used to treat redness, rashes, itch), inhalers, pills, injections.

Other products that might react like CORTICOSTEROIDS:

Class A, B, and D2 typically cross-react*

What should I do to avoid CORTICOSTEROIDS?

Use the table below to find safe alternatives.

Some products' ingredient lists are available on the internet at the manufacturer's website, the store's website, or

<http://householdproducts.nlm.nih.gov>,

<http://www.cosmeticsdatabase.com>, or <http://www.drugstore.com>.

Additionally, the ACDS Contact Allergen Management Program (CAMP) is designed to help patients manage allergic contact dermatitis and to find personal care products that are safe for them to use by creating a curated list of products that do not contain one's allergens. For more information about CAMP, please ask your physician or visit www.contactderm.org.

REVISION DATE: AUGUST, 2020

*OTHER: Classes of Steroids

Class	A	B	D2	C	D1
Structure:	No D ring subs'n, except C21 short chain esters	C16, 17-cis-diol or -ketal	C16-no methyl & no halogen, C17-long chain ester, +/- C21 chain	C16 –methyl substitution	C16 –methyl substitution, C17/21-long chain ester
Testing Substance	Tixocortol-21-pivalate	Triamcinolone acetonide Budesonide	Hydrocortisone-17-butyrate	Desoximetasone	Clobetasol-17-propionate
Usual Cross Reactions	D2	D2	A & B	--	--
Members	Cloprednolol, Dichlorisone acetate, Fludrocortisone acetate, Fluorometholone, Fluprednisolone acetate, Hydrocortisone, Hydrocortisone acetate, Medrysone, Meprednisone, Methylprednisolone, Prednisolone, Prednisone	Amcinonide, Budesonide, Desonide, Flunisolide, Fluocinolone acetonide, Fluocinonide, Flurandrenolide, Halcinonide, Triamcinolone, Triamcinolone acetonide, Triamcinolone diacetate	Hydrocortisone buteprate, Hydrocortisone butyrate, Hydrocortisone probutate, Hydrocortisone valerate, Methylprednisolone aceponate, Prednicarbate	Betamethasone, Betamethasone-21-disodium phosphate, Clacortolone pivalate, Desoximetasone, Dexamethasone, Diflucortolone pivalate, Diflucortolone valerate, Flumethasone, Fluocortin butyl ester, Fluocortolone (hexanoate, pivalate, caproate), Fluprednidene acetate, Halometasone	Alclometasone dipropionate, Betamethasone dipropionate, Betamethasone valerate, Clobetasone butyrate, Clobetasol propionate, Diflorasone diacetate, Fluticasone propionate, Halobetasol propionate, Mometasone furoate
Safe Substitutes	C,D1	C, D1	C	A,B,D1,D2	A,B,C
