

# Homosalate

## What is it?

Homosalate is an ultraviolet absorbing agent. It is used as a sunscreen in many cosmetics. It is sometimes added to products to prevent light-induced degradation. Thus, it may be found in products other than sunscreen.

## HOMOSALATE can also be known as:

- Homomethyl salicylate
- Homomenthyl salicylate
- 3,3,5-trimethylcyclohexyl salicylate
- Eusolex HMS
- Heliopan

## Some Possible Uses of HOMOSALATE /

### Where it might be found:

- Sunscreen
- Tanning oil
- Sunless tanner
- Facial moisturizer
- Tinted moisturizer
- Body Cream or lotion
- Body sprays and mists
- Make up: Foundation, Lip balm, Lip gloss

## Other products that might react like HOMOSALATE:

- None

## What should I do to avoid HOMOSALATE?

Avoid using any product that contains homosalate or one of the names highlighted above.

It is important to check the complete ingredient list on the label of each product you use. If no ingredient list is present, go to the store and inspect the original box or package. Some

products' ingredient lists are available on the internet at the manufacturer's or store's website.

Be sure to tell your beautician, hairdresser, masseuse, barber, attendant, and others who are involved in your personal care about your allergy.

To find a possible workplace exposure, check the complete ingredient list of each product you encounter. If you must come in contact with homosalate as you care for others, wear gloves made of rubber or vinyl.

By reading ingredient labels, you should be able to avoid this allergen and find safe substitutes that are free of it. Choose sun protective agents from other families, such as:

- Oxybenzone (benzophenone-3)
- Sulisobenzene (benzophenone-4)
- Avobenzone
- Cinnamates (octinoxate)
- Anthranilates (meradimate)
- Ecamsule
- Octocrylene
- Zinc oxide
- Titanium dioxide

*In addition, the ACDS Contact Allergen Management Program® (CAMP®) can help manage contact dermatitis. It helps to find products that are safe to use by creating a list of products that do not contain one's allergens.
