How to avoid it:

Avoid using any product that contains **lavender**. Check the label of each product you use to find the *complete* ingredient list. Lavender may be included under one of the names above or as part of added **fragrance**, **essential oil**, or **parfum**. If no ingredient list is present, go to the store and inspect the original box or package. Some products' ingredient lists are available on the internet at the manufacturer's website, the store's website, or websites such as <http://householdproducts.nlm.nih.gov>, <http://www.cosmeticsdatabase.com>, or <http://www.drugstore.com>.

For possible workplace exposure, check the complete ingredient list of each product you encounter, looking for one of the names highlighted above.

If you must come in contact with lavender at work or as you care for children, elders, or pets, wear protective gloves made of rubber, nitrile, or vinyl.

Ask your hairdresser, barber, esthetician, masseuse, attendant, and others care to avoid using products that contain lavender in your care.
