How to avoid it:

Avoid using any product that contains lichen or any of the names highlighted above. Check the *complete* ingredient list of each product you use. This product may be listed separately or included under the name **fragrance** or **parfum**.

If no ingredient list is present, go to the store and inspect the original box or package. Some products' ingredient lists are available on the internet at the manufacturer's website, the store's website, or websites such as <http://householdproducts.nlm.nih.gov>, <http://www.cosmeticsdatabase.com>, or <http://www.drugstore.com>.

For possible workplace exposure, check the complete ingredient list of each product you encounter, looking for one of the names above.

If you must come in contact with lichen products at work or as you care for children, elders, or pets, wear protective gloves.

Ask your hairdresser, barber, esthetician, masseuse, attendant, and others involved in your care to avoid using products that contain this allergen on you.

By reading ingredient labels, you should be able to avoid this allergen in personal products and find safe alternatives that do not contain it.
