

# METHYLDIBROMO GLUTARONITRILE

\_\_\_\_\_Name

\_\_\_\_\_Date

*also called...1,2-dibromo-2,4-dicyanobutane.* When used together with phenoxyethanol, it is known as **Euxyl K400**. MDBGN combined with propylene glycol is called **Merguard**.

## ***What is it?***

Methyldibromo glutaronitrile (MDBGN) is a chemical with activity against bacteria and fungi. It is used as a preservative in many personal, household, and industrial products.

## ***Where might it be found?***

Liquid soap, cleanser  
Body wash, shower gel  
Bubble bath  
Facial cleanser, toner  
Face or body scrub  
After-shave  
Facial or body moisturizer  
Anti-aging product  
Sunscreen, sunless tanner  
Shampoo  
Hair conditioner  
Hair styling product  
Hair color, dye  
Permanent wave solution  
Mascara, eye pen  
Make-up remover pads  
Moist wipes, baby wipes  
Pre-moistened toilet paper  
Sanitary napkins  
Incontinence pads

## ***Also may be in...***

Latex paints  
Paper towels, paper products  
Liquid detergent  
Fabric softener  
Industrial cleaners  
Metalworking fluids  
Industrial oil  
Joint cement, filler  
Wood preservatives  
Adhesives, glues  
Ultrasound gel  
Seed disinfectants  
Color photograph solutions

## ***How to avoid it:***

To avoid MDBGN check the complete ingredient list of each product you use. For products already at home that do not list ingredients, go to the store and inspect the original box or package. Some products' ingredient lists are available on the internet at the manufacturer's website, the store's website, or at websites such as <http://householdproducts.nlm.nih.gov>, <http://www.cosmeticsdatabase.com>, or <http://www.drugstore.com>.

Your exposure to MDBGN may be from contact with a partner who uses products that contain it.

Ask your hairdresser, barber, physician, nurse, and others to avoid using MDBGN in your care.

To identify possible workplace exposure, check the complete ingredient list of each product you encounter. It may be necessary to contact the manufacturer to learn if a commercial product contains this preservative.

If you must come in contact with MDBGN in your work or as you care for children, elders, or pets, wear protective gloves made of rubber, nitrile, or vinyl.

*[MDBGN has recently been removed from many leave-on products, like Lubriderm and Nivea lotions.]*
